 - 2 year warranty

SOFTWARE AVAILABLE IN
DOS & WINDOWS.

Visual display

Descriptive field information is user defined and easily entered via the keypad and also allows for gauge readings to be documented. Prompting feature ensures that each item will be checked.

Application examples

- Temperature/pressure gauge reading
- Fire extinguisher checks
- Exit light inspections
- Sprinkler inspections
- Smoke detector inspections
- Valve checks
- Emergency exit door checks

Tamper-proof checkpoints

Checkpoints are made of impact resistant lexan, the same material that professional football helmets are made of. They are paintable and affix by screw or adhesive back. Lifetime Guarantee.

Checkpoint dimensions
2 3/8"H x 1 1/2"W x 1/2"D
Tamper-proof mount
