

We've got the **touch**

Our new big, bright 7" touchscreen gives you an easier-to-use interface. But that's not all that's new. We listened to you and made KeyWatcher® Touch even more capable. The new KeyAnywhere feature enables you to return a key to any KeyWatcher in your enterprise. You can also locate which KeyWatcher a specific key is in, or determine who has it out, with the new KeyFind feature. We've also improved integration capabilities, along with many other convenient features. Of course you still get our patented SmartKey system, modular design and full scalability. We just keep making key management better. That's Morse Watchmans' outside the box thinking – right inside the box.

think inside the box.

KeyWatcher® T TOUCH

the integrated solution with touchscreen simplicity

Features

- Bright 7" full color, touch screen
- Common database for all KeyWatcher systems within a "Site"
- Enter custom notes and information via on-screen QWERTY keyboard
- Improved integration interface for 3rd party software
- "KeyAnywhere" allows keys to be returned to any KeyWatcher Touch within a site
- "My Keys Out" allows users to see which keys they have out, if any of their keys are overdue, and when their keys will become overdue
- Easier key removal – users select from a list of keys that they have access to
- Scheduled Reports feature lets users create reports, save criteria and schedule each report to be run automatically and emailed, saved or printed
- Text/email notifications enable users to create alerts for specific users, keys or events and select who will be alerted

Greater Ease of Use

- Easy-to-read, large buttons for convenient navigation
- Status bar guides users on what to do, and shows what is happening

More Capacity and Control

- Up to 14,400 keys and 10,000 users per site
- "Site" concept uses a common database
- Longer user ID's can be up to any 6 digits, plus a 4 digit PIN

KeyWatcher TrueTouch Software
