

Morse Watchman's Desktop Fingerprint Reader

- Integrated into TrueTouch, a “wizard” style interface allows for fingerprints to be enrolled easily with feedback about finger position, and 3 passes to ensure a good read.
- User fingerprints are stored globally – enroll once, and the enrollment is automatically synchronized to any KeyWatcher the user has access to.
- Stable desktop design allows users to easily place their fingers for enrollment.
- Utilizes a USB connection to any PC with TrueTouch for easy installation and use.
- Compatible with KeyWatcher Touch V2.0 and higher!
- Part # KW-8707

PC Requirements:

- ✓ Windows 7 or higher
- ✓ Supports 32 or 64-bit processor
- ✓ (1) USB A port
- ✓ TrueTouch V2.0 or Higher
